   This clone is available from RZPD;
   conteat RZPD (customer.service@rzpd.de) for further information.
   This CDS clone is a part of a collection of human full ORF clones generated by RZPD.
   This CDS has been cloned incl. stopcodon.
   The CDS has been inserted into pDONR201 via a BP Clonase(TM)
   Traction. Additional sequence has been added in front of the stancedon: art. .AAAAAA GCA GGC (ATG).
   After the stop codon 3' UTR sequence is present in front of the att site (ACCCAGCTTTCTT).
   Compared to the reference sequence NM_144501 (gi21464106) we did not find any amino acid exchanges.
